

# The Roadmapper

Each milestone release is an iteration of the platform - one milestone builds towards the next

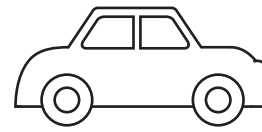

Milestone 1

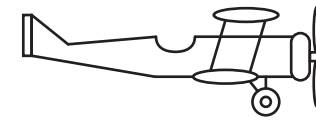

Milestone 2

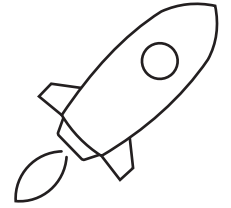

Milestone 3

Milestone 4

Milestone 5

Milestone 6

Targets

Targets are the stakeholders who will benefit from the milestone release.

Features

Features define the behavior of the milestone release: what will your platform do for this release?

Goals/KPIs

Goals/KPIs are quantifiable desired business outcomes that can be measured and tracked.

Change Management

Change management outlines impacts to existing stakeholders.
